LOGBOOK Karabo Mpalakane

Date:	4 August 2026	
Tuesday	1. What did I complete since the last standup?	Our team met to plan the UniMarket partnership pitch. We discussed which businesses and student organisations could partner with us, and what each partner would gain from working with UniMarket.
	2. What am I planning to complete between now and the next standup?	I plan to research possible partners such as campus printing shops, student housing providers and local delivery services. I also want to start sketching ideas for graphics that explain our subscription model.
	3. What are my impediments (or risks or problems)?	No major blockers at the moment. The main challenge is deciding which partnership benefits are realistic for a new platform to promise.

Date:	5 August 2026	
Wednesday	1. What did I complete since the last standup?	I drafted my part of the partnership pitch and started designing the subscription model graphics, showing the different plans and what each one includes for buyers and sellers.
	2. What am I planning to complete between now and the next standup?	I want to refine the graphics so the pricing tiers are clear and easy to compare at a glance. I'll also share my draft with the team for feedback and help with their sections.
	3. What are my impediments (or risks or problems)?	We're still working out how to price the subscription plans so they stay affordable for students while keeping UniMarket sustainable. We also need to keep the graphics simple and not too text heavy.

Date:	6 August 2026	
Thursday	1. What did I complete since the last standup?	I completed the subscription model graphics and added them to the pitch slides. We rehearsed the full pitch as a group, timed each section, and noted where we could explain our points more clearly.
	2. What am I planning to complete between now and the next standup?	I want to improve the graphics based on the feedback and make sure the colours and fonts match the rest of the slides. We also need to do a second rehearsal to smooth out the transitions between speakers.
	3. What are my impediments (or risks or problems)?	Time management is a concern as we need to fit the partnership details, the subscription model and the demo into the time limit. We need to agree on which points to cut.

Date:	7 August 2026	
Friday	1. What did I complete since the last standup?	We finalised the pitch slides and did a final rehearsal together. I reviewed my section and the team agreed on who will answer which questions.
	2. What am I planning to complete between now and the next standup?	I want to practise my delivery one more time and make sure I'm confident explaining the partnership benefits and the subscription plans. I'll also prepare a few backup points for possible questions.
	3. What are my impediments (or risks or problems)?	No major issues right now. We're all feeling good about the final pitch. I just want to make sure we stay calm and keep to time on the day.
